

Publications

1. **The Quantum Theory of Atoms, Molecules and Photons**, by J. Avery, McGraw-Hill, 1972, 378 pages.
2. **Theoria Cuantica de Atomos, Moléculas y Fotonos**, by J. Avery, Alhambra, Madrid, 1975, (Spanish translation of 1), 472 pages.
3. **Membrane Structure and Mechanisms of Biological Energy Transduction**, J. Avery, ed., Plenum Publishing Co., First printing 1973, Second printing 1974, 602 pages.
4. **Creation and Annihilation Operators**, by J. Avery, McGraw-Hill, 1976, 221 pages.
5. **Local Density Approximations in Quantum Chemistry and Solid State Physics**, J.P. Dahl and J. Avery eds., Plenum Publishing Co., 1984, 851 pages.
6. **Understanding Molecular Properties**, J. Avery, J.P. Dahl and A.E. Hansen eds., Reidel, Dordrecht, 1987, 598 pages.
7. **Hyperspherical Harmonics; Applications in Quantum Theory**, by J. Avery, Kluwer Academic Publishers, Dordrecht, 1989, 255 pages.
8. **Science and Society**, by J. Avery, H.C.Ø. Tryk, Copenhagen, 1990, 357 pages.
9. **Dimensional Scaling in Chemical Physics**, D.R. Herschbach, J. Avery and O. Goscinski eds., Kluwer Academic Publishers, Dordrecht, 1993, 510 pages.
10. **New Methods in Quantum Theory**, C.A. Tsipis, V. Popov, D.R. Herschbach and J. Avery eds., Kluwer Academic Publishers, Dordrecht, Netherlands, (1995), 520 pages.
11. **The Chemical Bond**, J. Avery ed., Special Issue of Int. J. Quantum Chem., Volume 58 Number 6, (1996) 202 pages.
12. **Progress, Poverty and Population**, by J. Avery, Frank Cass, London, (1997), 151 pages.

13. **Hyperspherical Harmonics and Generalized Sturmians**, by J. Avery, Kluwer Academic Publishers, Dordrecht, Netherlands, (2000), 196 pages.
14. **Information Theory and Evolution**, by John Avery, World Scientific Publishing Co., (2003), 250 pages.
15. **Calculus and Differential Equations**, by J. Avery, web publication, Learning Development Institute, (2005), 135 pages.
16. **Space Age Science and Stone Age Politics**, by J. Avery, Danish Peace Academy, Copenhagen, (2005), 274 pages; Urdu Translation, Mashal Books, Islamabad, Pakistan, (2006).
17. **Generalized Sturmians and Atomic Spectra**, by J. Avery and J. Avery, World Scientific Publishing Co., (2006), 258 pages.
18. **Energy, Resources, and the Long-Term Future**, by J. Avery World Scientific Publishing Co., (2007), 335 pages.
<http://www.worldscibooks.com/economics/6480.html>
19. *Introduction*, by J. Avery, in **The Chemical Bond**, J. Avery ed., Special Issue of Int. J. Quantum Chem., **58**, 537, (1996).
20. *The Structure of Liquids and Solutions as it Applies to Excitation Energy and Charge Migration Processes*, by J. Avery and R. Mason, in **Physical Processes in Radiation Biology**, L. Augenstein, R. Mason and B. Rosenberg eds., Academic Press, 1964.
21. *Localized and Delocalized Exciton States*, by J. Avery, R. Mason and L.G. Augenstein, in **Quantum Aspects of Polypeptides and Polynucleotides**, M. Weisbluth ed., Wiley (Interscience), 1964.
22. *Exciton Migration and Biological Systems*, by J. Avery, in **Electronic Aspects of Biochemistry**, B. Pullman ed., Academic Press, 1964.
23. *Statistical Aspects of Resonance Energy Transfer*, by J. Avery and J.C. Packer, in **The Triplet State**, A.B. Zahlan ed., Cambridge University Press, 1967.

24. *Measured Electron Density Distributions in Crystals as a Basis for Band Structure Calculations*, by J. Avery, P. Sommer-Larsen and M. Grodzicki, in **Local Density Approximations in Quantum Chemistry and Solid State Physics**, J.P. Dahl and J. Avery eds., Plenum Press, 1984.
25. *Exercises on Form Factor Models*, by J. Avery, in **Electron and Magnetization Densities in Crystals**, P. Becker ed., Plenum Press, 1980.
26. *Measured Electron Densities and Band Structure Calculations*, by J. Avery and P. Sommer-Larsen, in **Density Matrices and Density Functionals**, V.H. Smith and R.M. Erdahl eds., Reidel, 1986.
27. *Optical Properties of Large Molecules and Clusters in the Frenkel Exciton Approximation*, by J. Avery and S. Hvidt, in **Understanding Molecular Properties**, J. Avery, J.P. Dahl and A.E. Hansen eds., Reidel, 1986.
28. *Quasi-Tunnelling of Waves in a Constricted Passage*, by J. Avery and T.A. Bak, in **MATH/CHEM/COMP 1988**, A. Graovac ed., **Studies in Physical and Theoretical Chemistry**, Volume 63, Elsevier, Amsterdam, 1989.
29. J. Avery, *Hyperspherical Harmonics in Quantum Theory*, in **Problemes Non Lineaires Appliques, 1990-1991; Calcul Scientifique et Chimie Quantique**, Écoles CEA-EDF-INRIA, Rocquencourt, France, (1991), pages 1-28.
30. J. Avery, *D-Dimensional Hydrogenlike Orbitals*, in **Dimensional Scaling in Chemical Physics**, D.R. Herschbach, J. Avery, and O. Goscinski editors, Kluwer Academic Publishers, Dordrecht, Netherlands, (1992), pages 139-164.
31. *Report of Working Group 6 on Sustainable Development*, by J. Avery, G. Borrini and A. Haines **Proceedings of the 42nd Pugwash Conference on Science and World Affairs, Volume 1**, World Scientific, London, (1994), pages 34-39.

32. *Malthus Revisited*, by J. Avery, **Proceedings of the 42nd Pugwash Conference on Science and World Affairs, Volume 2**, World Scientific, London, (1994), pages 817-821.
33. *Towards a Sustainable Global Society*, by J. Avery, in **A World at the Crossroads: New Conflicts, New Solutions**, J. Rotblat and S. Hellman Editors, World Scientific, London, (1994), pages 163-171.
34. *United Nations Charter Reform*, by J. Avery, in **Proceedings of the 44th Pugwash Conference on Science and World Affairs**, World Scientific, London, (1994), pages 334-335.
35. *Hyperspherical Harmonics, Some Properties and Applications*, by J. Avery, in **Conceptual Trends in Quantum Chemistry, Volume 1**, E.S. Kryachko and J.L. Calais, Editors, Kluwer Academic Publishers, Dordrecht, Netherlands, (1994), pages 135-169.
36. *Dimensional Scaling in Quantum Theory*, by J. Avery, in **Structure and Dynamics of Atoms and Molecules, Conceptual Trends**, J.L. Calais and E.S. Kryachko, Editors, Kluwer Academic Publishers, Dordrecht, Netherlands, (1995), (pages 133-153).
37. *Hyperspherical Sturmian Basis Functions in Reciprocal Space*, by J. Avery, in **New Methods in Quantum Theory**, C.A. Tsipis, V. Popov, D.R. Herschbach and J. Avery eds., Kluwer Academic Publishers, Dordrecht, (1995).
38. **Resonance Energy Transfer and Related Phenomena**, by J. Avery, Ph.D. Thesis, Imperial College of Science and Technology, University of London, 1965, 203 pages.
39. *Delocalized Exciton States and Biological Systems* by J. Avery, Z. Bay and A. Szent-Györgyi, Proc.Natl.Acad. Sci. (U.S.),*47*, 1742, (1961).
40. *Exciton States in Polymers*, J. Avery and R. Mason, J. Phys. Chem. *69*, 784, (1965).
41. *Resonance Energy Transfer and Spontaneous Photon Emission*, by J. Avery, Proc. Phys. Soc. (London) *89*, 677, (1966).

42. *The Retarded Dipole-Dipole Interaction in Exciton Theory*, by J. Avery, Proc. Phys. Soc. (London) 89 677, (1966).
43. *Charge Transfer at Interfaces and Bioenergetics*, by J. Avery, Proc. Second International Congress of Biophysics, Vienna, (1967).
44. *Retardation Effects and the Optical Properties of Polymers*, by J. Avery, J. de Chemie Physique 65, 125, (1968).
45. *Raman Spectra of Tetrahalo Anions of Fe^{III} , Mn^{II} , Fe^{II} , Cu^{II} and Zn^{II}* , by J. Avery, C. Burbidge and D.M.L. Goodgame, Spectrochimica Acta 24A, 1721, (1968).
46. *Theoretical Estimation of the Conductivity of Complicated Periodic DNA Models on the Basis of the Deformation Potential Approximation*, by J. Ladik, L. Seprödi, J. Avery and J. Packer, J. Chem. Phys. 49 4243 (L), (1968).
47. *Editorial; Scope of the Journal; and Notes for Contributors* Journal of Bioenergetics, 1,2 (1970).
48. *The First Excited Triplet States of the Nucleotide Bases, Calculated in Different Semiempirical SCF Schemes*, by J. Packer, J. Avery, J. Ladik and C. Biczó, Int. J. Quantum Chem. 3, 79, (1969).
49. *Energy Band Structure Calculations for Poly(A-T) and Poly(G-C) in the Semiempirical SCF LCAO Crystal Orbital Approximation*, by J. Packer, J. Avery, J. Ladik and C. Biczó, J. Mol. Spectr. 29, 194, (1969).
50. *Aims and Scope of the Journal of Bioenergetics*, by J. Avery, Sub-Cellular Biochem. 1, 98, (1971).
51. *Biologiske Anvendelser af Kvantemekaniken*, by J. Avery, Dansk Kemi 53 73 (1972) (in Danish).
52. *A Fully Retarded Expression for Rotatory Strength*, by A.E. Hansen and J. Avery, Chem. Phys. Letters 13, 396, (1972).

53. *A Fully Retarded Expression for the Circular Dichroism of Polymers in the Frenkel Exciton Model*, by A.E. Hansen and J. Avery, *Chem. Phys. Letters* *17*, 561, (1972).
54. *Optical Activity of Helical Polymers; The Effect of Helix Geometry*, by J. Avery and A.E. Hansen, *Proc. 4th International Biophysics Congress, Moscow*, (1972).
55. *A General Perspective of the Quantum Mechanical Basis of Energy Transduction*, by J. Avery and C.M.E. Pavlidou, *Ann. N.Y. Acad. Sci.* *227*, 651, (1974).
56. *Application of Fourier Transform Methods in Molecular Orbital Theory. Calculation of Optical Properties and Tables of Two-Center One-Electron Integrals*, by J. Avery and M. Cook, *Theor. Chem. Acta* *35*, 99, (1974).
57. *On the Ordinary and Rotatory Intensities of Electronic Transitions in Polymers*, by A.E. Hansen and J. Avery, *Annales de la Societe Scientifique de Bruxelles*, *89*, 121, (1975).
58. *Circular Dichroism of Helical Polymers Calculated in the Frenkel Exciton Model and in the Bloch Crystal Orbital Model*, by J. Avery and A.E. Hansen, *Annales de la Societe Scientifique de Bruxelles*, *89*, 253, (1975).
59. *Applications of Fourier Transforms in Molecular Orbital Theory. II. Evaluation of Frenkel Exciton Lattice Sums*, by J. Avery, *Theor. Chim. Acta* *39*, 281, (1975).
60. *Generalized X-Ray Scattering Factors. Simple Closed-Form Expressions for the One-Center Case with Slater-Type Orbitals*, by J. Avery and K.J. Watson, *Acta Cryst.* *A33*, 679, (1977).
61. *Generalized Scattering Factors and Generalized Fourier Transforms*, by J. Avery, *Acta Cryst.* *A35*, 849 (1979).
62. *Transferable Integrals in a Deformation Density Approach to Molecular Orbital Calculations. I.*, by J. Avery, *Int. J. Quantum Chem.* *16*, 1265, (1979).

63. *Transferable Integrals in a Deformation Density Approach to Molecular Orbital Calculations. II.*, by J. Avery and E. Berg, Int. J. Quantum Chem. *16*, 1279, (1979).
64. *Transferable Integrals in a Deformation Density Approach to Molecular Orbital Calculations. III.*, by J. Avery, Int. J. Quantum Chem. Symposium *13*, 403, (1979).
65. *Transferable Integrals in a Deformation Density Approach to Molecular Orbital Calculations. IV. Evaluation of Angular Integrals by a Vector-Pairing Method*, by J. Avery and P.-J. Ørmen, Int. J. Quantum Chem. *18*, 953, (1980).
66. *Transferable Integrals in a Deformation Density Approach to Molecular Orbital Calculations. V. Coupling Coefficients for Crystal Symmetry Functions*, by J. Avery and P.-J. Ørmen, Int. J. Quantum Chem. Symposium *14*, 629, (1980).
67. *Transferable Integrals in a Deformation Density Approach to Molecular Orbital Calculations. VI. Crystal Harmonics and their Properties*, by J. Avery, P.-J. Ørmen and I. Chatterjee, Int. J. Quantum Chem. *21*, 515, (1982).
68. *Transferable Integrals in a Deformation Density Approach to Molecular Orbital Calculations. VII. Crystal Field Theory Using Measured Densities and Potentials*, by J. Avery, P.J. Ørmen and D. Mullen, Int. J. Quantum Chem. Symposium *15*, 477, (1981).
69. *Line Intensities in an $A \rightarrow E \otimes \epsilon$ Jahn-Teller Electronic Transition*, by C.J. Ballhausen and J. Avery, Mol. Phys. *43*, 1199, (1981).
70. *Angular Integrations in Many-Dimensional Spaces and Hyperspherical Harmonics*, by J. Avery and Z.-Y. Wen, Int. J. Quantum Chem. *22* 717, (1982).
71. *Matrix Elements of a Many-Particle Hamiltonian Evaluated Using Hyperspherical Coordinates*, Int. J. Quantum Chem. Symposium *17*, 201, (1983).

72. *A Formulation of the Quantum-Mechanical Many-Body Problem in Terms of Hyperspherical Coordinates*, by J. Avery and Z.-Y. Wen, Int. J. Quantum Chemm. *25* 169 (1984).
73. *A Model for the Primary Process in Photosynthesis*, by J. Avery, Int. J. Quantum Chem. *26*, 917 (1984).
74. *A Model for Biological Specificity*, by J. Avery, Int. J. Quantum Chem., *26*, 843, (1984).
75. *Some Properties of Hyperspherical Harmonics*, by Z.-Y. Wen and J. Avery, J. of Molecular Sciences (Wuhan, China) *2*, 73, (1984).
76. *Hyperspherical Coordinates and the Quantum Mechanical Many-Body Problem*, by J. Avery and Z.-Y. Wen, J. of Research, Mining Institute of Xi'an (Xi'an, Shaanxi, China) *3*, 1, (1984) (in Chinese).
77. *Physical Attributes*, Nature, *308*, 137 (1984) (book reviews).
78. *Use of the S-Matrix in the Relativistic Treatment of Resonance Energy Transfer*, by J. Avery, Int. J. Quantum Chem. *25*, 79, (1984).
79. *Application of Hyperspherical Coordinates to the Correlation Problem*, by J. Avery, B. Christensen-Dalsgaard, P. Sommer-Larsen and H. Shen, Int. J. Quantum Chem., Symposium *18*, 321, (1984).
80. *Primární Procesi Fotosyntéz*, by J. Avery, Chemické listy (Prague, Czechoslovakia) *79* 153 (1985) (in Czech).
81. *Some Properties of Hyperspherical Harmonics*, by Z.-Y. Wen and J. Avery, J. Math. Phys. *26*, 396 (1985).
82. *Orbital Angular Momentum Eigenfunctions for Many-Particle Systems*, by J. Avery, Canadian J. Chem. *63*, 1719, (1985).
83. *Construction of Orbital Angular Momentum Eigenfunctions for Many-Particle Systems by Harmonic Projection*, by J. Avery and P. Sommer-Larsen, Int. J. Quantum. Chem. *29*, 1735, (1986).
84. *Torsion-Vibration Interaction in CH₃O*, by H. Rudolf, J. Avery and J.O. Henningsen, J. Molec. Spectr. *117*, 38, (1986).

85. *The Quantum Mechanical Many-Body Problem in Hyperspherical Coordinates. Analysis of Systems with Coulomb Interactions in Terms of Hydrogenlike Wave Functions*, by J. Avery, P. Sommer-Larsen and H. Shen, *Int. J. Quantum Chem.* *26*, 129, (1986).
86. *Optical Properties of Large Molecules and Clusters in the Frenkel Exciton Picture*, by J. Avery and S. Hvidt, *Int. J. Quantum Chem.* *29*, 497, (1986).
87. *Many-Dimensional Hydrogenlike Wave Functions and the Quantum Mechanical Many-Body Problem*, by J. Avery, *Int. J. Quantum Chem.*, Symposium *20*, 57 (1986).
88. *Correlation in Iterated Solutions of the Momentum-Space Schrödinger Equation*, by J. Avery, *Chem. Phys. Letters* *138*, 520, (1987).
89. *The Band Structure of Silicon, Based on X-Ray Diffraction Data*, by P. Sommer-Larsen and J. Avery, *Acta Cryst. Suppl.* *A43*, 109, (1987).
90. *Spectroscopy of Large Molecules in the Frenkel Exciton Approximation*, by J. Avery, *J. Mol. Structure (Theochem)* *179*, 225, (1988).
91. *Iteration of the Momentum-Space Schrödinger Equation*, by J. Avery and P. Sommer-Larsen, *Int. J. Quantum Chem*, Symposium *22*, 437, (1988).
92. *A New Approach to the Quantum Mechanics of Atoms and Small Molecules*, by J. Avery and F. Antonsen, *Int. J. Quantum Chem.*, Symposium *23*, 159, (1989).
93. *Approximate Separation of the Hyperradius for Many-Particle Systems*, by J. Avery, D.Z. Goodson and D.R. Herschbach, *Int. J. Quantum Chem.* *39*, 657, (1991).
94. *Dimensional Scaling and the Quantum Mechanical Many-Body Problem*, by J. Avery, D.Z. Goodson, and D.R. Herschbach, *Theor. Chim. Acta* *81*, 1, (1991).
95. *Magnetic Interactions and 4 -Currents*, by J. Avery and F. Antonsen, *Journal of Molecular Structure (Theochem)*, *261*, 69, (1992).

96. *Hyperspherical Sturmian Basis Functions*, by J. Avery and D.R. Herschbach, Int. J. Quantum Chem., **41**, 673, (1992).
97. *Iteration of the Schrödinger Equation Starting from Hartree-Fock Wave Functions*, by J. Avery and F. Antonsen, Int. J. Quantum Chem. **43**, 87, (1992).
98. *4-Currents in Relativistic Quantum Chemistry*, J. Avery, F. Antonsen and I. Shim, Int. J. Quantum Chem. **45**, 573, (1993).
99. *Selected Applications of Hyperspherical Harmonics in Quantum Theory*, by J. Avery, J. Phys. Chem. **97**, 2406, (1993).
100. *Evaluation of Angular Integrals by Harmonic Projection*, J. Avery and F. Antonsen, Theor. Chim. Acta. **85**, 33, (1993).
101. *Future Environment of Health in Europe: Technology*, by J. Avery, World Health Organization, Regional Office for Europe (Copenhagen), Report of the Second Consultation on Future Trends in Society and the European HFA Strategy, (1992).
102. *Fock Transforms in Reciprocal-Space Quantum Theory*, by J. Avery, J. Mathematical Chemistry **15**, 233, (1994).
103. *Sturmian Basis sets in Momentum Space*, by J. Avery, T. Børsen Hansen, M. Wang and F. Antonsen, Int. J. Quantum Chem., **57** 401-411, (1996).
104. *Egy Fenntarthatc Globalis Tarsadalom Fele'*, by J. Avery, Fizikai Szamle, **44**, 379-384, (1994) (Hungarian translation of *Towards a Sustainable Global Society*, (1994)).
105. *A Fourier Transform Approach to Potential Harmonics*, by J. Avery, W. Bian, J. Loeser and F. Antonsen, Int. J. Quantum Chem., (1997) (in press).
106. *Representation of Cusps in a Hyperspherical Basis Set*, by J. Avery and F. Antonsen, J. Mathematical Chemistry, **19**, 289-300, (1996).
107. *A Momentum-Space Picture of the Chemical Bond*, by J. Avery and T. Børsen Hansen, Int. J. Quantum Chem., **60**, 201-211, (1996).

108. *Kemi i Medicinens Tjenste*, by J. Avery, *Naturligvis*, 29-31, (1996).
109. *Generalized Potential Harmonics and Contracted Sturmians*, by V. Aquilanti and J. Avery, *Chem. Phys. Letters* **267**, 1-8, (1997).
110. *Technology, Economics and Population in the 21st Century*, by J. Avery, pages 562-567, **Proceedings 46th Pugwash Conference on Science and World Affairs, Lahti, Finland, September 2-7, (1996)**, Joseph Rotblat, Ed., World Scientific, London, (1998).
111. *Towards a War-Free World*, by J. Avery, pages 165-167, **Proceedings 46th Pugwash Conference on Science and World Affairs, Lahti, Finland, September 2-7, (1996)**, Joseph Rotblat, Ed., World Scientific, London, (1998).
112. *Report on Working Group 5: Developing in Peace*, by J. Avery, pages 58-60, **Proceedings 46th Pugwash Conference on Science and World Affairs, Lahti, Finland, September 2-7, (1996)**, Joseph Rotblat, Ed., World Scientific, London, (1998).
113. *Many-Particle Sturmians*, by J. Avery, *J. Math. Chem.* **21**, 285-304, (1997).
114. *Relativistic Sturmian Basis Functions*, by John Avery and Frank Antonsen, *J. Math. Chem.*, (**24** 175-185, (1998).
115. *Many-Electron Sturmians as an Alternative to the SCF-CI Method*, by J. Avery, *Adv. Quantum Chem.* **31**, 201-229, (1999).
116. *Report on Working Group 10: Social Responsibility of Scientists*, by J. Avery and I. Slaus, *Proceedings*, in *Remember Your Humanity*, J. Rotblat Editor, World Scientific, London, (1999), pages 97-99.
117. *The Impact of Science and Technology on the Fate of Humankind*, by J. Avery, in *Remember Your Humanity*, J. Rotblat Editor, World Scientific, London, (1999), pages 873-880.
118. *Many-Electron Sturmians Applied to Atoms and Ions*, by J. Avery, *J. Mol. Struct. (Theochem)* **458**, 1-9, (1999).

119. *A Formula for Angular and Hyperangular Integration*, by J. Avery, J. Math. Chem., **24**, 169-174, (1998).
120. *Many-Electron Sturmians Applied to Molecules*, by J. Avery and S. Sauer, in **Quantum Systems in Chemistry and Physics, Volume 1**, A. Hernández-Laguna, J. Maruani, R. McWeeney and S. Wilson editors, Kluwer Academic Publishers, (2000).
121. *Towards a War-Free World*, by J. Avery, in **Security, Cooperation and Disarmament, the Unfinished Agenda for the 1990's**, J. Rotblat, editor, World Scientific, (1999), pages 165-170.
122. *Technology, Economics and Population in the 21st Century*, by J. Avery, in **Security, Cooperation and Disarmament, the Unfinished Agenda for the 1990's**, J. Rotblat, editor, World Scientific, (1999), pages 562-567.
123. *Generalized Sturmians Applied to Atoms in Strong External Fields*, by John Avery and Cecilia Coletti, J. Math. Chem. (2000) **27**, 43-51 (2000).
124. *Many-Electron Sturmians Applied to Atoms and Ions in Strong External Fields*, by John Avery and Cecilia Coletti, in **New Trends in Quantum Systems in Chemistry and Physics**, J. Marauani et al. (eds.), pages 77-93, Kluwer Academic Publishers, (2001).
125. *Core Ionization Energies of Atoms and Molecules Calculated Using the Generalized Sturmian Method*, by John Avery and Rune Shim, Int. J. Quantum Chem. **79**, 1-7 (2000).
126. *The Impact of Science and Technology on the Fate of Humankind*, in **Remember Your Humanity**, J. Rotblat editor, World Scientific, (1999), pages 873-880.
127. *Malthus' Essay on the Principle of Population*, by John Avery, in **Encyclopedia of Life Support Systems**, UNESCO (1999).
128. *The Generalized Sturmian Method and Inelastic Scattering of Fast Electrons*, by J. Avery, J. Math. Chem. **27**, 279-292, (2000).

129. *Sturmian Expansions for Quantum Mechanical Many-Body Problems and Hyperspherical Harmonics*, by V. Aquilanti and J. Avery, *Advances in Quantum Chemistry*, **39**, 72-101, (2001).
130. *Molecular Sturmians, Part 1*, by J. Avery and R. Shim, *Int. J. Quantum Chem.*, bf 83, 1-10 (2001).
131. *Report on Working Group 6: Public Health and Peace*, by J. Avery, in **The Long Roads to Peace**, J. Rotblat editor, World Scientific, (2001), pages 54-56.
132. *An International Police Force?*, by J. Avery, in **The Long Roads to Peace**, J. Rotblat editor, World Scientific, (2001), pages 221-223.
133. *Poverty, Disease and War*, by J. Avery, in **The Long Roads to Peace**, J. Rotblat editor, World Scientific, (2001), 380-383.
134. *A Theoretic-Numeric Approach to the Derivation of Electronic Non-Adiabatic Coupling Terms*, by John Avery, Michael Baer and Gert D. Billing, *Molecular Physics*, (2002).
135. *Sturmians*, by John Avery, in **Handbook of Molecular Physics and Quantum Chemistry**, Wiley, Chichester (2003).
136. *Sturmian Methods in Quantum Theory*, by John Avery, *Proceedings Workshop on Concepts in Chemical Physics*, Technical University of Denmark, (2001).
137. *Atomic Orbitals and Atomic Structure*, by John Avery and Roy McWeeny in **Handbook of Molecular Physics and Quantum Chemistry**, Wiley, Chichester (2003).
138. *Molecular Orbitals and Molecular Structure*, by John Avery and Roy McWeeny in **Handbook of Molecular Physics and Quantum Chemistry**, Wiley, Chichester (2003).
139. *Orbitals for Periodic Systems*, by John Avery and Roy McWeeny in **Handbook of Molecular Physics and Quantum Chemistry**, Wiley, Chichester (2003).

140. *Condorcet, Godwin and Malthus; A Philosophical Perspective* by John Avery, in **Malthus in Norway**, An-Magritt Jensen editor, Abstract Press, Trondheim, (2002).
141. *Harmonic Polynomials, Hyperspherical Harmonics and Sturmians*, by John Avery, in **Tribute to Per-Olov Löwdin**, Erkki Brandas and Eugene Kryachko editors, Kluwer Academic Publishers, (2003).
142. Avery, J., *Sturmians*, in **Handbook of Molecular Physics and Quantum Chemistry**, S. Wilson, ed., Wiley, Chichester, (2003).
143. Avery, J., *Harmonic polynomials, hyperspherical harmonics, and Sturmians*, in **Fundamental World of Quantum Chemistry, A Tribute Volume to the Memory of Per-Olov Löwdin**, E.J. Brändas and E.S. Kryachko, eds., Kluwer Academic Publishers, Dordrecht, 261-296, (2003).
144. Avery, J. and Avery, J., *The Generalized Sturmian Method for calculating spectra of atoms and ions*, J. of Math. Chem., **33** 145-162, (2003).
145. Avery, J. and Avery, J., *Kramers pairs in configuration interaction*, Adv. Quant. Chem., **43** 185-206, (2003).
146. Avery, J., *Many-center Coulomb Sturmians and Shibuya-Wulfman integrals*, Int. J. Quantum Chem., (2003).
147. Avery, J., Avery J. and Goscinski, O., *Natural orbitals from generalized Sturmian calculations*, Adv. Quant. Chem., **43** 207-16, (2003).
